# Assembly

Sew the big horn on the head's nose tip.

Sew the smaller horn on each side of the head, between round 3 and 4.

Sew the cheeks on each side of the head, between round 6 and 7.

Embroider the eyes on each side of the head with black yarn.  
How the eye should look like, it's up to you! :-)

Press the front of the body into the middle of the head's backside (where you have filled lightly with filling) and sew it together – around the whole neck. By flipping the neckshield you can easier sew it to the body – *see picture to the right.*

Sew the legs on the bottom of the body. Where to place them it's up to you – if you like them close to each other or further away. The legs on my green dino is attached between round 19-22 and round 26-29.

Sew one big spot and one small spot on one side of the body, and the other two on the other side of the body. Where to place them it's up to you. The spots on my green dino is attached between round 17-21 and round 23-28.
